Subject: RE: chemist position

Hi Sonja, I wanted to let you know that you will be starting down here Monday May 19. You will just be getting familiar with the lab equipment and general procedures the first few days. For the first 2-3 weeks plan on working 9-5. After that we can adjust your schedule to something more flexible. Enjoy your vacation and we'll see you down here the 19th. Chuck Salemi

Subject: chemist position

Mr. Salemi,

I've heard that Arthur Kazianis has received the application packet for the position that I will be vacating, and I'm looking forward to making the move to the 3rd floor. Please keep me informed if you hear anything about my start date. Also, I wanted to let you know that I have a vacation planned for the second week of May (the 13th through the 16th). I feel bad that it will be during my training, but my vacation was planned before I even knew the chemist 1 position would be opening and I can't change the dates as the flights, hotel, etc. is non-refundable. I wanted to inform you in person, but, due to the hiring freeze and what-not, I am still up in the HIV lab. I look forward to working with you.

Sonja
